

## **Sascha Paulus heads up the new cooling business unit at Glen Dimplex Deutschland.**

Kulmbach. Since 01 March 2021, Sascha Paulus has been the new Business Unit Director for cooling at Glen Dimplex Deutschland (GDD).

He brings to the table more than 16 years of international market experience in the field of sustainable cooling and heat pump solutions and has extensive specialist know-how in sales, project planning and product management, international distribution management and business development.

After studying engineering in Cologne, Sascha Paulus began his professional career as a project engineer for cooling solutions with Glen Dimplex. He then spent some time working for Glen Dimplex in the USA, where he was responsible for process optimisation in sales and production. After returning to Germany, he took over as the head of sales in the industrial cooling unit.

From 2011 to 2016, Sascha Paulus was the head of product management for the cooling division at ait deutschland GmbH in Kasendorf.

Most recently, Paulus worked for the Mannheim-based refrigeration and climate control specialists Rütgers GmbH & Co KG as a support base manager responsible for major refrigeration projects and the absorber market.

The 41-year old is now returning to his old stamping ground after more than 10 years away, aiming to develop the cooling business with customer-focused and innovative solutions.

“In Sascha Paulus, we are delighted to have recruited an experience expert for this position and we are confident that he will develop our new cooling business unit with his expertise and experience in responsible positions”, says CDD Managing Director, Clemens Dereschkewitz.

### **About Glen Dimplex Deutschland and the Glen Dimplex Group:**

Glen Dimplex Deutschland is part of the international Glen Dimplex Group based in Ireland - a leading international supplier of electric heating solutions and domestic appliances.

Glen Dimplex Deutschland combines the group's global knowledge and expertise in the development of highly efficient system solutions for heating, cooling and ventilation of buildings, as well as commercial and industrial applications and supplies the Dimplex, Riedel and Koolant Koolers brands. As well as the headquarters in Kulmbach, Glen Dimplex Deutschland also has subsidiaries in Kalamazoo (USA) and Shenyang (China). The company is managed by CEO Clemens Dereschkewitz.

At its HQ in Kulmbach, Glen Dimplex has stood for expertise in heating and refrigeration for over 40 years. This is where energy-efficient heating and air-conditioning systems are designed by our engineers and technicians at our in-house Development department and perfected to market maturity. Products from Glen Dimplex are a byword for engineering expertise, quality and "Made in Germany" design. Glen Dimplex Deutschland's worldwide locations employ around 1,000 people.
